### ELINOR SMITH HANGS UP NEW FLIGHT RECORD

Girl, 17, Sets World  
Endurance Mark for  
Women.

### ALOFT 25 HOURS

Bellanca, Designer of  
Plane, Will Congratu-  
late Her.

By JAMES L. KILGALLEN  
International News Service Staff  
Correspondent.  
ROOSEVELT FIELD, N. Y.,  
April 24.—Miss Elinor Smith,  
smiling 17-year-old aviator,  
not only had broken the world's  
endurance flight record for  
women but at 11:43 a. m. today  
had surpassed the former re-  
cord of Mrs. Louis McPhetridge  
Thaden of California by two  
hours. Mrs. Thaden's record  
was 22 hours, 3 minutes and  
12 seconds.

At 12:43 p. m. Miss Smith  
had been in the air 25 hours, 3  
minutes, 12 seconds.

Smiles, Waves to Crowd.  
Miss Smith, in a heavily laden  
Bellanca monoplane, was soaring over  
the field at this hour, her motor humming  
steadily, and showing no indication  
of coming down. She smiled and  
waved to the crowd on the field.

She stuck her head, encased in a  
new red leather helmet, out of the  
window and she greeted the throng on  
the field. She is attired in knicker-  
suits and (her father, Thomas  
Smith, confided) she is wearing her  
"heavies," so as not to catch cold. She  
is the old-fashioned type of girl, she  
admits, and she doesn't want to be  
referred to as the "flying flapper."

The fact that she broke the record  
was greeted with cheers at Roosevelt  
field where she is immensely popular  
with the aviators and the general run  
of employees.

Laughs When Record Falls.  
The slim girl flirer gave no indica-  
tion to aviators who flew close to her  
when she would come down. She was  
laughing gaily when she realized she

LISBON, Portugal, April 24.—(INS.)

ond Mediterranean cruise with 19  
passengers aboard, passed over this  
city at 10:45 a. m. (4:45 a. m., E. S.  
T.) today.

Residents of the city crowded every  
available roof-top as the huge craft  
came into sight, her silver-sheened  
sides glistening in the morning sun-  
light.

After circling the city, the Zepp-  
lin headed southward.

Pick Up Graf Message.  
LANSDALE, Pa., April 24.—(INS.)  
—A brief radio message believed to be  
from the Graf Zeppelin in its cruise  
over the Mediterranean was received  
early today by James Byers, North  
Wales amateur radio operator.

It read:  
"Greetings. Barcelona southwest.  
Weather clear. Up 1200 feet.  
"N. E. L."

Byers said he received the message  
over a wave length of between 40 and  
45 meters.

The huge German dirigible left yes-  
terday on a three-day trip over the  
Mediterranean.

### REWARD OFFERED IN SALEM MURDER

Mayor Phil G. Hiddleston, Salem, to-  
day announced a reward of \$200 for  
information leading to the arrest and  
conviction of the slayer of John Gold-  
ner, who was shot to death in a woods  
south of Salem last October.

Hiddleston said his action was  
prompted by the refusal of the county  
to post a reward for the apprehension  
of those responsible for Goldner's  
death. Goldner who was in search  
of wild honey is believed to have  
been killed after having been struck  
on the head with a blunt instrument.

### TWO CLEVELAND MEN ARE SLAIN IN REPRISAL

Victims 'Taken for Ride'  
And Beaten to  
Death.

### ICE PICK USED

Gangland Killing is Af-  
termath of Rum Truck  
"Hi-jacking."

CLEVELAND, April 24.—(INS.)—  
Gangland moved in swift reprisal here  
today against Morris "Skinny"  
Fuerstman, 25, and Isadore Schiller,  
43, who were "taken for a ride" early  
this morning, beaten to death, and  
their bodies thrown into a ditch in  
Independence village, south of here.

Contrary to first reports, the vic-  
tims were not shot. The heads of  
both had been battered in and an ice  
pick had been driven into Fuerst-  
man's skull with such force that only  
the handle protruded and the combined  
efforts of several policemen  
were necessary to remove it.

Both men were known to police as  
"racketeers." Schiller's record ex-  
tends as far back as 1916, while  
Fuerstman also had a long record.  
Detectives characterized the two as  
"shakedown artists," who levied  
tribute on gambling houses and vice  
dens. They are known to have worked  
together and were implicated in  
many crimes.

Reports have it that they "hi-jack-  
ed" a liquor truck from Detroit sev-  
eral days ago, and police believe  
gangsters from the latter city may  
have been responsible for the kill-  
ings. The two also are said to have  
been involved in a kidnapping in  
Cincinnati recently and to have been  
connected with a Detroit criminal  
gang.

Detectives are searching for Fuerst-  
man's automobile. There was no in-  
dication of a struggle at the point where  
the bodies were found and police are  
convinced that the lifeless bodies  
were thrown from an automobile.

Suspects in Detroit Killing.  
DETROIT, April 24.—(INS.)—Morris  
"Skinny" Fuerstman and Isadore Schil-  
ler, alleged Cleveland gangsters whose  
bodies were found in a ditch near  
Brooklyn Village, O., were suspects in  
the killing of Samuel Abramson, De-  
troit rum racketeer, Detroit police ad-  
mitted today.

Abramson's bullet-riddled and mul-  
tilated body was found in an alley in  
Detroit last April 18.

### THEATER MANAGER ROBBED, BEATEN

NEWARK, O., April 24.—(INS.)—  
Jay Barker, 50, former Zanesville thea-  
ter manager, was found lying uncon-  
scious and bruised in a ditch along the  
National highway, near here, today,  
and told police he had been robbed  
and beaten by two men he had picked  
up at Zanesville last night.

Barker was found by a bus driver.  
He was taken to a Zanesville hospital  
where his condition is reported as crit-  
ical.

According to reports, Barker took  
his chance acquaintances for a ride  
about 9 o'clock last night. When the  
men reached Brownsville, they forced  
Barker from the car, beat and rob-  
bed him of \$70 and then drove away.

### SPECIAL MUSIC

Inter-city Meeting in  
Steubenville on  
May 10.

Approximately 125 elementary  
school boys, winners in the Rotary  
club's annual book-reading and essay  
writing contest, were guests at a din-  
ner meeting in the gymnasium of the  
Y. M. C. A. at 6:30 o'clock last night.

Sixty children from the Third street  
school, under the direction of Miss  
Mary Andrews, principal, presented  
a musical and literary program. The  
program was in the form of a radio  
broadcast from station TSS (Third  
street School). Miss Betty Louise  
Rubin was the announcer.

About 20 members of the club at-  
tended the meeting. President Albert  
Frosch introduced Charles R. Boyce,  
of the boy's work committee in charge  
of the annual contest, who was chair-  
man of the meeting.

Announcement was made of an in-  
ter-city meeting to be held at Steu-  
benville Friday night, May 10, in  
which members of seven clubs—Steu-  
benville, Washington, Wheeling, Car-  
rollton, Coshocton, Wellsburg, and  
East Liverpool—will take part.

A committee consisting of L. W. Smith,  
Dr. Collin Kinney and Ray Birch was  
named by President Frosch to ar-  
range for the local club's partici-  
pation.

Among the boys who were guests  
last night were a number who were  
winners in contests in 1927 and 1928.  
More than 1,800 boys in the public  
and parochial schools took part in  
this year's competition. A framed pic-  
ture of President Hoover or Colonel  
Lindbergh or Old Ironsides, or an  
American flag, will be presented each  
room in which all boys wrote an es-  
say.

### TWO DYNAMITE BLASTS AIMED AT POLICEMEN

Underworld Voices Grim  
Warning in Clevel-  
land.

### HOMES DAMAGED

Open Defiance Follows  
Officers' Raids on  
Bootleggers.

CLEVELAND, April 24.—(INS.)—  
Two dynamite bombs, exploding in  
front of the homes of two Cleveland  
policemen early today voiced a grim  
warning and an open defiance from  
the city's underworld.

One bomb was exploded in front of  
an apartment where Police Sergeant  
Patrick J. Holland had lived about a  
month ago. Authorities say there is  
no question but that the blast was  
aimed at him.

The second explosion came an hour  
later and damaged the home of Police  
Captain William A. McMaster on the  
East Side, to the extent of about  
\$1,000. Both officers have been active  
in raids on bootleggers and are known  
to be greatly hated and feared by cer-  
tain local liquor rings.

Windows Are Broken.  
The explosion intended for Sergeant  
Holland tore several small frame  
porches from a four-story apartment  
house and threw several persons from  
their beds. Windows were broken in  
the apartment house and in houses  
on both sides.

The second blast, in front of Cap-  
tain McMaster's home, occurred at 2  
o'clock, according to Mrs. McMaster,  
who had arisen to get one of her chil-  
dren a drink of water. The force of  
the detonation almost knocked her  
down, she related.

Captain McMaster, on duty at cen-  
tral station at the time, rushed home  
with a police squad when his wife  
telephoned him. Every window in the  
front of the house had been broken  
and the cement steps to the front  
porch were wrecked.

Third Explosion Solved.  
Police say the two explosions also  
solve the mysterious blast, April 12,  
which damaged a home formerly  
owned by Police Sergeant Mack. The  
latter has also been active against  
bootleggers.

The dynamiters apparently consult-  
ed the latest directory and thus went  
astray in seeking the homes of two of  
their intended victims. Mack and Hol-  
land have moved since the directory  
was published.

Holland is head of the downtown  
vice and liquor squad while Mack com-  
manded an automobile squad armed  
with shotguns which was organized  
two years ago. Captain McMaster's  
work against bootleggers in a precinct  
station resulted in his recent trans-  
fer and instructions to "clean up the  
downtown section."

### WOMAN IS FINED ON LIQUOR COUNT

Mrs. Sophia Hazlett, whose home in  
"Little England" was raided by Po-  
lice George Kidder Saturday  
night, pleaded guilty to a charge of  
possessing intoxicating liquor when  
she faced Municipal Judge J. C. Han-  
ley today. She was fined \$125 and  
costs.

Police filed a charge against Otto  
Hazlett, the husband, following a test  
of whisky seized in the raid, but he  
was not at home when they sought  
to arrest him Monday. Mrs. Hazlett  
claimed ownership of the liquor, ex-  
onerating her husband, today.

### TRUCK DRIVER HURT IN CRASH

Byron Seever, 25, truck driver for  
the City market, St. Clair avenue,  
suffered minor injuries when the  
truck which he was operating was  
struck and overturned by a sedan,  
bearing a New York license, at West  
Fifth and Jackson streets at 11:30  
o'clock this morning.

Seever was traveling south in Jef-  
ferson street when the sedan, headed  
east, struck the rear end of the truck.  
The sedan, the driver of which was  
not identified, was driven away under  
its own power.

### WHEELING POLICE CALL FOR MANN

East Liverpool, who will go on trial  
before Judge W. F. Lones in common  
pleas court at Lisbon next Monday,  
upon an indictment charging him with  
manufacturing distilled liquor, is  
wanted by police at Wheeling and al-  
so in Belmont county. Sheriff Barlow  
was advised today. Lisbon authorities  
say that Mann will not be surrendered  
until the county case here has been  
disposed of.

### GEER SENTENCED TO REFORMATORY

Thomas Geer, East Liverpool, was  
sentenced to serve from one to 20  
years in the reformatory on each of  
three indictments, charging him with  
uttering and publishing forged instru-  
ments, by Judge W. F. Lones in com-  
mon pleas court, Lisbon, yesterday.  
The sentences will run concurrently.  
Rodney Collins, Laura Bell Herman  
and Ruth Gary, who were indicted  
with Geer, will go on trial on like  
charges next Tuesday.

### SMITH TOPPLED AS CURRY WINS TAMMANY POST

Ahearn, Al's Candidate  
For Tiger Chieftain,  
Defeated.

### DERBY DISCARDED

Mayor Walker Backs  
Fighting Leader in  
Contest.

By DAVID P. SENTNER,  
International News Service Staff  
Correspondent.

NEW YORK, April 24.—Alfred E.  
Smith, recent Democratic presidential  
candidate, and overlord of Tammany  
Hall, today was toppled off the politi-  
cal ladder.

John F. Curry, fighting district lead-  
er who upon at least two occasions  
outwardly flayed the methods of the  
Smith sphere of influence, today wore  
the headpiece of complete leadership  
in the famous political wigwam.

Curry was elected Tammany chief  
by 12-16 votes to 10-13 votes over  
Edward J. Ahearn, backed by the  
Smith forces. The winner replaced  
Judge George W. Olvany, who recent-  
ly resigned following dissatisfaction  
with his regime. Olvany was supported  
by Smith during practically all of  
his administration in the affairs of  
Tammany.

With the discarding of the brown  
derby—symbol of the Smith forces—the  
Tammany Tiger put on a new  
skin. The Curry victory was seen as  
a revolution by the workers against  
the all-killing methods of the old  
regime.

And behind the velvet of outward  
handshaking contacts, political ob-  
servers saw the ascendancy of Mayor  
James J. Walker in the Democratic  
party at the expense of former Gov-  
ernor Smith.

Mayor Walker backed the Curry  
candidacy. Smith fought it. Walker's  
man won and it is now possible for  
"Smiling Jimmy" to become national-  
ly ambitious.

Curry announced after his election  
that he would urge the re-election of  
Mayor Walker.

### WEST END MAN DIES AS AUTO STRIKES TRUCK

Arthur Parkinson, 40,  
Victim of Toronto  
'Accident.'

### SKULL CRUSHED

Driver of Car is Held  
On Charge of Man-  
slaughter.

A man, believed to be Arthur  
Parkinson, 40, West End pot-  
ter, was killed when an auto-  
mobile in which he was riding  
crashed into a truck owned by  
the Toronto Sanitary Milk  
company in North Fourth  
street, Toronto, at 5:45 o'clock  
last night. His skull was  
crushed.

Fail to Find Relatives.  
The victim was identified by Thom-  
as Stafford, Steubenville, formerly of  
East Liverpool, who told Jefferson  
county authorities that Parkinson  
had a sister in East Liverpool with  
whom he made his home. Efforts of  
police to locate relatives or friends  
of Parkinson here today had been fu-  
tile.

Charles Bickerstaff, Steubenville,  
driver of the car in which Parkinson  
was a passenger, is held in the Jef-  
ferson county jail at Steubenville, to-  
day, in default of a \$2,500 bond,  
charged with manslaughter, following  
arraignment before Mayor E. R.  
Geisler, Toronto, last night. John and  
Nick Finnegan, Steubenville, also pas-  
sengers in the machine, are held as  
material witnesses.

Bickerstaff, driving a touring car,  
and the two Finnegan brothers were  
riding along the Steubenville-Toronto  
road when they met Parkinson, who  
was to have been walking toward  
East Liverpool. Parkinson was in-  
vited to ride.

Police Say Driver Fled.  
Bickerstaff told police, Parkinson  
asked him to drive him to East Liv-  
erpool. He said they were returning  
to Steubenville to replenish the gaso-  
line supply when the automobile  
crashed into a milk truck driven by  
Robert Weaver, Toronto.

Toronto police said that Bicker-  
staff fled following the accident. He  
was arrested at the home of friends  
in Toronto about three hours after  
the crash.

Body of Parkinson was removed  
to the Van Nuy's funeral home in To-  
ronto.

Coroner Archie Bell, Steubenville,  
rendered a verdict that Parkinson  
had come to his death while "riding  
in an automobile driven by Robert  
Bickerstaff," at an inquest.

Parkinson was slightly crippled as  
he walked with a cane. He was about  
five feet 10 inches tall and weighed  
about 150 or 160 pounds.

### GIRL FACES JURY ON DEATH COUNT

ZANESVILLE, O., April 24.—(INS.)  
—A jury of twelve men was selected  
today to hear the case of pretty 24-  
year-old Thelma Bonifant, who went  
on trial here yesterday morning on a  
first-degree murder charge.

Opening statements to the jury were  
made shortly before noon, and exami-  
nation of state witnesses is expected  
to feature the afternoon session.

Miss Bonifant appeared unmoved as  
she sat in the courtroom listening to  
the prosecuting attorney tell the jury  
how she allegedly attended a "drink-  
ing party" during which Henry Wal-  
brown, 35, Beech Bottom, W. Va., was  
shot and killed.

# 'Orange Root' Triumphed Over Terrific Neuritis Pains, Says

Mr. A. B. Pritchett Tells of His Remarkable Recovery From Two Years Seige of Neuritis Which Racked His Body Night and Day with Terrific, Knife-like Pains. Says 5 Bottles ORANGE ROOT Did It.

Mr. A. B. Pritchett, of New Cumberland, near East Liverpool, O., is so grateful for the benefits received thru the use of "ORANGE ROOT" Iron & Celery Compound that he voluntarily sends in this message that others suffering as he did might heed it and gain succor from their own misery.

For the past 2 years I have suffered untold misery with neuritis, which was robbing me of all vitality. My body was so filled with aches and pains that I was in constant misery all the time. Terrific, knife-like pains would shoot thru my hips and limbs from walking at time, and then when I did walk, it was with great difficulty. My rest at night was so disturbed that I was almost impossible to get to sleep. I tried all the medicines I heard of and was treated by many specialists, but nothing seemed to reach the seat of the trouble. This suffering continued for 2 years till my body became so weak and rundown that I gave up hope of ever getting well again. It was my good fortune to hear of the wonderful results achieved by

this ORANGE ROOT in this particular malady. I started taking it. You can imagine my surprise and delight when after finishing the third bottle I got relief from all my misery and now after finishing the 5th bottle I am completely restored to health and feel better and stronger than I have in years. I found the golden Nuggets to be the finest liver regulator and bowel cleanser I ever used, and am proud to tell everybody that ORANGE ROOT made a well man of me. "If you are suffering as Mr. Pritchett did, or have rheumatism, indigestion, nervousness, bad blood, skin eruptions and feel all-in, tired and worn out, go at once to MATHEWS ORIGINAL CUT RATE, where the Orange Root man is daily meeting the public explaining and introducing this great health-restoring ORANGE ROOT, get a SPRING TREATMENT of it and a box of the golden Nuggets, take them according to directions, and you too, will soon be back on that glorious road to HEALTH, FREE samples of the Nuggets given at MATHEWS—Prices: TONIC, \$1.25; Nuggets 50c. # WILLIAMS COLLEGE Editor thought OG's couldn't win!

But look what happened when a third of the student body compared the four leading cigarettes with names concealed

THE WILLIAMS RECORD, TUESDAY, MARCH 26, 1929

## 'OLD GOLD' CHALLENGES AND WINS IN CIGARETTE 'TEST'

Challenging the statement appearing in the columns of THE RECORD of February 26 that Williams men have a distinct preference for — cigarettes as proven by the fact that that brand outsells competitors in local shops, the Old Gold company last Friday afternoon conducted one of its famous "concealed name tests" at Williams. As a result, Williams has joined the growing list of colleges and universities which have given Old Gold a plurality in such a contest, for out of the 234 votes cast, the challenging brand received 66 first choices, while two other leading makes could do no more than tie for second place with 59 votes apiece, and a fourth prominent brand received 50 preferences.

To admit no unfairness into the test, each brand of cigarette was denoted by one of five possible numbers, stamped on the black band concealing the name, so that comparison of numbers among those taking the test would have been difficult. The results of the voting, done entirely by number, were checked up by Secley '29, and A. Clark '30, Business Manager and Assistant Business Manager of THE RECORD.

As a result of the try-outs held last Friday

### Grade Crossing Toll Mounts

Ohio's highway grade crossing toll, which is on the increase despite the gradual elimination of death traps, was given another boost yesterday when an automobile dealer, en route to Holmesville, was killed by a train at New London.

Reports filed with the Interstate Commerce commis- sion show that 2,568 lives were sacrificed in crossing crashes last year, an increase of 197 over the 1927 re- port. In addition, 6,667 persons were injured, an in- crease of 54 compared with the figures in the previous year. And the 5,890 accident total was 160 more than the number in 1927.

The increase in casualties is not startling when it is recalled that the number of automobiles in operation showed a large gain, but it does stress the fact that motorists fail to heed the admonition to "Stop, Look and Listen" at railroad crossings.

As attested by the Pennsylvania company's improve- ment program at Barclay's, east of Midland, Pa., and establishment of warning signals at other intersections, the railroads are making progress in the movement to eliminate dangerous intersections with highways. How- ever, the work is so expensive that it will be many years before all crossings are eliminated.

In the meantime, it will pay automobile operators to forget their haste and stop and look up and down the tracks before attempting to pass over a railroad cross- ing. This common sense practice will decrease the ac- cident toll.

### Radio World Institution

Radio sets are in use in practically every country, Com- merce department study shows. Nearly half of the world total in United States, Finland and Russia have high- est-powered foreign broadcasting stations. Radio ex- ports from United States last year set high record.

The remarkable extent to which radio has penetra- ted to the four corners of the earth is revealed in an analysis of world markets for radio equipment just completed by the Department of Commerce. Broad- casting stations, the report shows, are operating near the Arctic Circle, on the Equator, and far down in the Southern Hemisphere. From Greenland to Ceylon and from Yugoslavia to China radio sets are being tuned in to catch practically the same type of programs as are given in the United States. Radio has become a universal institution.

There are in use throughout the world today, ac- cording to Lawrence D. Batson of the Electrical Equip- ment Division of the department who made the survey, more than 20 million radio sets, nearly half of these being in the United States. Great Britain and Germany have approximately 2,500,000 each; France has 1,250, 000; Japan, 550,000; and Argentina, 530,000. The coun- tries next in order of importance are Sweden with 371,000 sets, Austria with 325,000 and Czechoslovakia and Italy each with 250,000.

More than 95 per cent of the radio sets on the con- tinent of North America are in the United States and Japan has about the same proportion of the total of Asia. Argentina possesses more than half the sets in South America while in Europe, Great Britain, Ger- many and France together account for 75 per cent of the total. The Union of South Africa has about 50 per cent of all the radio sets in Africa.

Practically every foreign country, the report discloses, has regulations governing broadcasting. In the large European countries, including the United Kingdom and Germany, broadcasting stations are generally owned and operated by the national government; Sweden grants a concession to one company to operate the main stations while the smaller ones are owned by radio clubs; in North and South America broadcasting sta- tions with few exceptions are privately owned and op- erated; Australia and New Zealand grant concessions but the former country is now preparing to take over the high-powered stations.

### Radivisor

Twenty years ago the public would have scoffed at the proposal to guard treasure by invisible rays, yet such is to be the method to be followed when a priceless col- lection of silver and historical relics is put on exhibi- tion May 1 at Seaford House in Belgrave square, Lon- don, the property of Lord and Lady de Walden, in aid of a London hospital.

The "radivisor," as the invention is called in a Lon- don cable, is an arrangement of electrical currents which will act as hidden guardians. The apparatus is so arranged that invisible rays will go out from differ- ent hidden places in the room so that the exhibit will be entirely surrounded by a barrier which nothing can pass without sounding alarms all over the premises. Whenever any one, or any thing, passes the barrier, the current is broken and the alarms are sounded. In fact, all doors and windows into the treasure room are to be thus guarded as an additional precaution, and the floor and ceiling will be guarded in the same way. A mouse could not come from a hole in the floor or a bird fly down from the ceiling above without breaking the current and sounding the alarm.

And thus the war goes on—the war of defense for the protection of valuables and that of offense by the underworld. Yesterday, the defensive was in the ascen- dancy. Today the criminal world may have found the answer, the solution of the defensive strategy. The day after, another barrier of defense may be erected. Who knows? Possibly the criminal world may learn how to break through this latest defense of invisible rays, but it will not learn speedily, for criminals, any and all beliefs to the contrary, are not giants mentally. If they get the answer, it will probably be through cor- ruption—the corruption of somebody on "the inside," or the corruption of some scientific mind.

## HASKIN DAILY LETTER

By Frederick J. Haskin

WASHINGTON, D. C., April 24.—Washington officials have been shown an interesting contrast in the matter of relations with Mexico through the presence here of Senor Moises Saenz, sub-secretary of the Mexican min- istry of education, at the same time when the state and war departments have found it necessary to watch with close attention the progress of the rebellion in the northern section of the Mexican republic which has resulted in encroachments on American soil. While the state department observes the progress of military and political events through diplomatic channels, and the war department has found it necessary to send airplanes to the border, Senor Saenz has been in this country spreading the doctrine of Mexican culture.

Senor Saenz was brought to the United States by the committee on cultural relations with Latin Amer- ica for the purpose of explaining to American officials and educators what has been done in promoting educa- tion in Mexico and despite disturbed political condi- tions of the last two or three decades, south of the Rio Grande. It appears that the educational methods introduced there embody a lesson from which Ameri- can pedagogues can profit.

Such high officials of the United States government and prominent educators as Secretary of the Interior Wilbur, formerly President of Leland Stanford Uni- versity in California, John Cooper, United States Com- missioner of Education, Dr. Leo S. Rowe, Director Gen- eral of the Pan American Union, Dr. John Dewey, Pro- fessor of Philosophy at Columbia University, have found so much of value in the Mexican educational sys- tem that they believe teachers of the United States should give it careful attention.

Although a young man, Senor Saenz has reached a position of dominance in Mexican education. During the past four years he has established four thousand public schools in the rural districts of Mexico, has trained many teachers, and devised a system of the co-operative building of schools. His educational system is revolutionary but peculiarly adapted to Mexican needs and close observers believe that his system may do more toward the tranquilizing of Mexico than any num- ber of revolutions.

The population of Mexico has as its basis Indian blood. This has been leavened by Spanish admixture in many cases but there remain millions of Mexicans of pure Indian antecedents. This being the case, Dr. Saenz has proceeded on the theory that it is unwise to attempt to enforce a Spanish educational system upon the Mexican child. He has constructed his whole scheme on the idea that foreign ideas must be aban- doned and education adapted to purely native nec- essities. The Mexico of the Indian as well as the Span- ish-Indian and the pure Castilian must be given an op- portunity to express itself in a purely Mexican man- ner. In some respects Dr. Saenz' system resembles the Montessori system wherein the child is given freedom to select lines of work for which he is especially adapted.

In the rural districts each school has pupils of all ages and both sexes. All learn together. Only in the larger cities are the children graded into classes. In the present state of education in Mexico the need for such matters as algebra, grammar, chemistry, civ- ics, and many other subjects to be found in the cur- riculum of American schools is not keenly felt. That will come later. Until a new generation rises and un- til the present rising one learns many rudiments the higher education can wait. The important thing, Dr. Saenz believes, is to teach the Mexican child to do things for himself.

Much attention is given to painting, sculpture and music. There are itinerant teachers who go from school to school imparting knowledge of these arts. The native Mexican has a more natural aptitude for sculp- ture than for painting. Each child is permitted to bring to the school enclosure any animal pets he has with the result that the patios of the schoolhouses are ver- itable menageries. The pupils learn how to care for these animals as husbandmen but also they model them in clay and the older pupils carve them in stone.

In the evenings, the schoolhouses become the meet- ing places of adults. They are taught when they de- sire instruction on specific subjects but chiefly they use the patios for places of general discussions on topics of interest to them. Newspapers and magazines are read to those unable to read themselves and their whole out- look broadened under the tutelage of the teacher.

### Questions And Answers

This is a special department devoted solely to the handling of queries. This paper puts at your disposal the services of an extensive organization in Washington to serve you in any capacity that relates to information. This service is free. Failure to make use of it deprives you of benefits to which you are entitled. Your obli- gation is only two cents in coin or stamps enclosed with your inquiry for direct reply. Q. If black absorbs more heat than white, why can the colored race endure hot weather better than the white race? C. A.

A. In speaking of color, in a test made with the various materials dyed different colors and covering blocks of ice to determine which color absorbed the most heat, the blocks under the white material at the end of a given period were larger than the blocks under the black color. The explanation for this, of course, is that white reflects more rays of the sun than black. In speaking of the negro and dark races and their adaptability to heat, this test does not hold good. With the human element it is largely the question of being acclimated. The negro race as far back as our records run, was a native of the tropical countries. Consequently, the transplanting of this race to northern climates make its members just as uncomfortable as it would make an Eskimo, also dark skinned, to put him in the extreme south.

Q. What countries have colonies in Africa? M. C.

A. Great Britain, France, Italy, Portugal, Spain, and Belgium have African colonies.

Q. What is the real name of Tully Marshall? N. W. W.

A. This veteran of the stage and movies has merely dropped his last name for professional use. His name is Tully Marshall Phillips.

Q. Have Australia and New Zealand had recent votes on prohibition? R. M. S.

A. September 1, 1928, in New South Wales, Australia, a compulsory referendum vote defeated prohibition 670-179 to 269,162. New Zealand which votes on a referen- dum at general election every three years, voted on November 14, 1928: For continuing the licensing sys- tem, 374,503; for prohibition, 294,453; for state control, 64,276.

## NEW YORK Day By Day

By O. O. McIntyre.

NEW YORK, April 24. — Few real- istic writers or playwrights have caught the drama of the slum tenement in New York. The nearest per- haps was the play "Street Scene" this season, but even this sacrificed much actual realism for a stagey theatrical- ism it seemed to think necessary.

Most of the hive-like tenements sweep all chords of emotion in a single day—birth, death, suicide, murder, marriage, robbery and so on. Every day there are moments of high ex- citement and every night some epi- sode becomes startlingly vivid. And through it all is the bright eyed charm always found among the worth- less and a tenuous humility that is sublime.

Mass existence is something that cannot be seen from the sidewalk or elevated train window. It coils deep in the tiny flats that honeycomb the glowering buildings where fire escapes are criss-crossed with wet wash and every hallway is a love got or con- fessional.

The slum tenement is a city walled in during winter. Only the children, literally sewed in their clothing, and men who must go forth to earn the daily bread, are seen. Women some- times do not go beyond the front door vestibule until the first chirp of the robin.

New York has done much to uproot its terrible tenements and supplant them with structures that offer liv- able quarters, but the shabby ram- shackle warrens still exist. Headlines frequently bring them to public at- tention with: "Flames Sweep Like Wildfire Through Tenements."

The tenement is not confined to the lower East Side. There are many on Ninth and Tenth avenues and along the water front, and despite their squalor and wretchedness many remarkably talented men and women have sprung from the dingy depths—like lilies in the bog.

There is no place where the call of misery and woe receives such respon- sive sympathy as in the slums. The sympathetic have no money or other worldly goods to offer but of their time and labor they give freely and gladly—and to the utmost.

Nothing is quite so appealing as the engagingly shy "little mother" of the tenement. She takes full responsi- bility for the welfare of her younger

brothers and sisters—washes, feeds, clothes and otherwise gives them the attention of a grown mother. As a rule when she approaches woman- hood her burdens have become so heavy she must continue the inglori- ous life of sacrifice.

Sociologists find girls are not so much affected by slum environment as boys. A big percentage reach womanhood as "good girls," and any number have become leading edu- cators and prominent executives in the business world. The boy often falls afoul the malign influence of the pool hall or candy store and is a criminal before he is in long trousers.

The famous flea circus on West 42d street is now in the fifth year of its remarkable run, and still attracts patronage. Its heaviest audiences are recruited from the theaters in the same block. It is one of the stunts for the stuffed shirts and crimi- nals wraps to drop in and wait until the traffic tides abate.

Sixth avenue and 42d street form four of the busiest corners, yet there is difficulty keeping stores rented. Sometimes they are untenanted for months.

At a Carnegie Hall concert the other evening the orchestra leader silenced his music and asked the audience for quiet. There have been times when many of us asked to join the audience in a similar request of the orchestra.

One of those Russian cafes, hiding away in a crepuscular cellar in mid- town, and featuring the Volza boat song and a high booted sitting down dancer, is supposed to have a door- man who was once a grand duke. He was preening his beard with a comb before a mirror in the entrance way the other night.

"Atta boy!" called out an arriving patron. "Duke it up!"

"What makes you think you are a columnist?" postcards "Cornell 1931." Haven't you heard? I have a follow- ing. He was here this morning to cut my hair.

### Other Editors Say

Racketeers Can Be Convicted. Sixteen members and officials of the Chicago Candy Jobbers' associa- tion have been convicted in the fed- eral court on the charge of conspiring to restrain trade in violation of the Sherman act. They are accused of using terroristic methods against storekeepers whose methods of doing business did not meet with the as- sociation's approval. That is to say, they were accused of racketeering.

The conviction is a wholesome one and may serve as a warning to sim- ilar associations which impose their will upon small merchants by bombs, sluggings, and threat to bomb and slug. It reflects no credit upon the prosecuting authorities of Cook coun- ty that the conviction was obtained by federal action in the federal court. The men found guilty no doubt vi- olated the federal statutes, but their offense, essentially, was against the peace of the state of Illinois and it in the courts of the state of Illinois that they should have been called to account first.

The conviction does prove, beyond doubt, that evidence of racketeering can be obtained if there is the will to obtain it, and that convictions can be had on the evidence. It is announced that the government will next proceed against members of the paint- ers' district council on somewhat similar charges. The vigorous pro- secution of racketeering cases in the state as well as the federal courts would make Chicago an unwholesome place for bombers, gunmen and slug- gers, as well as for the parasites who live off them.—Chicago Tribune.

### Once Overs

By J. J. Mundy. In Time of Test.

What do you do, and what do you say, and how do you act when you are given a supreme test?

Go all to pieces and thereby lose your one chance of recovery?

It is the test that counts.

You have always tried to get out of tests when you could.

You have allowed your children to escape examinations whenever they could avoid them.

You used to think school tests the bugbear of your life.

You usually said they were unfair.

Most of those who cannot pass ex- aminations say they are unfair.

But what good is your education if you cannot pull something out of your own brain when you meet an emer- gency?

Some folks have gone to school 12 years or more and yet they never take an initiative.

They are not sure enough of any one thing to be able to depend on it.

They cannot apply a single rule they are supposed to know.

It is in time of testing that you should show your mettle, and life is one continuous test. Show your spunk.

# AN ALL-STEEL REFRIGERATOR

## THE FIRST

### ...THE ONLY ONE!

**THIS** General Electric is the only refrigerator built entirely of steel! Think what that means! It is sturdy and durable beyond anything that you ever believed a refrigerator could be.

This small-family model freezes a generous supply of ice... and in a shorter time. One tray freezes in two hours, both trays in four. It uses less current because the cabinet is so efficient that cold does not leak out and heat does not creep in.

And, of course, it has the exclusive advantage of simplified mechanism, enclosed in an

hermetically sealed steel casing and mounted on top. This leaves the greatest area available for food storage and makes possible the up-on-legs model which is so easy to clean under.

In operation it is extremely quiet. It never needs oiling. You just plug it into any convenient outlet. See all its unique features yourself. Come in today. And ask about the very convenient plan on which it can be bought.

## SINGING CONVICT IN "WEARY RIVER"

Although television is still a thing of the future as far as the public is concerned, a combination of motion pictures and the radio is presented for their approval in the Richard Barthelmess feature, "Weary River," now at the American theater.

"In Weary River" the hero is shown singing over a radio, and the audience will see him and hear him. The radio plays an important part in the unfolding of the story and the new developments in sound and dialogue synchronization make it possible to present this innovation in "Weary River."

"Weary River" relates the sentimental and romantic story of Jerry Larrabee, a singing convict whose radio broadcasting from prison wins him a parole, a new chance at life, fame that takes him to the stage and the love of the girl who stood by him in the hour of direst need.

It was directed by Frank Lloyd from a short story by Courtney Ryley Cooper and was adapted by Bradley King. The leading feminine role is played by Betty Compson and the cast includes William Holden, Louis Nahan, George Stone, Raymond Turner and others.

## "COHENS, KELLYS" RIOTOUS COMEDY

Lovers of a riotous comedy farce based on an excellent romance are crowding the State theater, where "The Cohens and Kellys in Atlantic City" is the screen feature.

There are many big sequences such as that of the beauty parade and the return of Cohen and Kelly to their modernized bathing suit establishment. The picture was actually filmed in its locale of Atlantic City, with real bathing beauty parades and every thing which increases the interest immensely.

George Sidney, in the starring role of Cohen, gives one of his funniest portrayals. Sidney is a fine actor in any role, but he is unquestionably at his best as Cohen.

Vera Gordon, in the role of Mrs. Cohen, is as always, an excellent farce comedienne. Mack Swain and Kate Price as the Irish contingent battle the Cohens to a tie for comedy honors.

"The Cohens and Kellys in Atlantic City" is the story of a pair of big bathing suit men whose angle on

## Better Bedding Week

### Invest in Rest

A Simple Recipe for Health, Beauty and Happiness

For the preservation of health and beauty. Sleep has no equal. The process of sleep is recuperative, renewing the bodily tissues worn out during the day's activity. Fresh red corpuscles course through the veins of the properly rested persons; a feeling of well being and healthfulness prevails; a true and natural color tints the flesh of the efficient sleeper. That's health - - - that's beauty - - - that's happiness.

The recipe is simple: Eight hours' sleep each night on a good mattress in a well ventilated room. Once lost, women pay great prices for the recovery of health and beauty. They can be preserved for the price of a good mattress—less than a penny a night.

In our bedding department will be found a wide variety of well-made mattresses in a pleasing selection of colors, appropriate for any bedroom setting. Each is built to give full rest and relaxation for every moment spent in bed. You are invited to inspect them during Better Bedding Week.

### STOP BAD BREATH

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

Olive Tablets bring no griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaints, with attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take nightly for a week and note the effect. 15c, 30c, 60c. All Druggists.

## REDEMPTORIST SPEAKS HERE ON "JUDGMENT"

Rev. Father Prosser Delivers Sermon at Retreat.

### MISSION CHIEF

Lima Priest Conducts St. Aloysius Church Services.

The Rev. Father John J. Prosser, Redemptorist, of Lima, spoke last night on "Judgment" at the annual retreat for men and women in the St. Aloysius Catholic church, West Fifth street. His sermon was taken from the text: "It is appointed for man to die and after death judgment."

The missionary, in the most forceful sermon of the week, pointed out how necessary it is for the soul to be in a state of grace at the hour of death when it will be immediately judged and asked to give an account of its stewardship.

The Rev. Father Prosser urged his hearers to live in conformity with the laws of God and the commandments of the church in order that they might receive the sentence, "Come ye into the mansion which I have prepared for ye."

Retreat mass is celebrated every morning at 5:30, while evening services are held at 7:30.

and went home." That's all he remembers.

WHAT about the gentlemen that supplied whisky to these men? Have the authorities made any effort to identify and punish the whisky sellers? Not yet.

THE "William and Mary" plan to subsidize exports of farm products is rejected by Mr. Hoover. The senate plans nevertheless to try it.

The plan is to give the farmer exporting wheat, etc., a bonus of one-half the American tariff on all the wheat or other farm products exported.

AFTER consulting the Departments of Agriculture, Commerce and the Treasury, Mr. Hoover says the plan would enrich speculators and reduce world prices, since foreign markets would have to meet the competition of subsidized products.

Also, says the president, the plan would cost the country \$200,000,000 a year, cause much bankruptcy and it would not solve the farm problem.

FARMERS will cease moaning when they realize that the bonus money will be paid, not directly to them, but to merchants exporting products.

It needs "no ghost come from the grave" to tell farmers how little they would get of that bonus. Wheat farmers and the middle men would get it. The farmer in his taxes would have to pay part of it.

IN CALIFORNIA, a passenger and an Army plane colliding in mid-air, killing six, should cause authorities to enforce definite rules for flying.

Those that witnessed the crash described the swift Army pursuit plane "maneuvering apparently with ease about the larger passenger plane, doing stunts."

The pilot of the Army plane, dead, cannot tell his story.

But playful maneuvering of pursuit planes around passenger planes should be discouraged.

THE first "skyscraper" ever built in Chicago's Tacoma building. Its 14 stories amazed visitors to the Chicago Exposition in 1893. Workmen with torches are ready to burn through the steel, tear down the old building and make room for a building 35 stories higher.

FEW commercial skyscrapers will last as long as the Tacoma building. Cities will change, some disappearing, as flying machines make concentration of dwellings unnecessary.

The future will see an entire industrial city under one roof with a landing field on top, workers flying to their homes on hill tops, after a four-hour work day.

Improved machinery will bring the four-hour day as it has brought the eight-hour day already.

MADALINE FEROLA, widow worrying about 11 children, thought a man named Carmelli intended to marry her and help with the children. He didn't and she killed him, was sentenced to death, and sentence commuted, has been in jail 18 years.

Gov. Roosevelt, of New York, sends her home to her 11 children. That's better than feeding her to the electric chair.

## KIWANIS TO HEAR ALLIANCE MAN

Robert Hawerman, secretary of the Alliance Retail Merchants' association, will be a guest of the Kiwanis club at a luncheon in the grill room of the Travelers' hotel tomorrow.

Hart Larkins, city chemist, and Claude Keys, automobile accessory dealer, will be introduced as new members.

Bangalore is Goal of Royal Air Force Men.

CRANWELL AIRDROME, England, April 24.—(INS.)—A giant royal air force monoplane, carrying 1,000 gallons of fuel, hopped off here at 10:45 o'clock a. m. for Bangalore, India, in an attempt to establish new world long distance and duration records.

The occupants of the plane were Squadron Leader J. O. C. S. Williams and Flight Lieutenant N. H. Jenkins. It was originally planned to attempt a non-stop flight to Capetown, South Africa, but the route was changed because of bad weather over Central Africa.

The plane weighed six and one-half tons at the hop-off.

## BOY CONFESSES TWO BURGLARIES

ZANESVILLE, O., April 24.—(INS.)—A 13-year-old boy, arrested here by police yesterday in connection with an attempt to break into the building of the Provident Loan company, had today confessed to committing two other burglaries during the night.

The boy, Forrest Myers, was discovered in the act of prying open a rear window, police said.

## CHICAGO BLAST ROCKS BUILDING

CHICAGO, April 24.—(INS.)—An explosion today shook a Gold coast apartment building in which Deputy Police Commissioner John Stege lives and for a time it was thought a bomb had been hurled.

Indications revealed that gas caused the blast in a restaurant on the first floor. About 150 guests were aroused. Flames followed the explosion and caused \$5,000 damage.

### Breaks Air Record

(Continued From Page 1)

had established a new world's record. Miss Smith left the ground at 11:43 a. m. yesterday. She carried 210 gallons of gasoline and eight and one-half gallons of oil besides a liberal supply of food and drink. She had formerly held the record at slightly over thirteen hours, a mark she set in the bitter cold weather last January with an open-cockpit Bird biplane. When Mrs. Thaden broke that mark and stayed up a few minutes more than 22 hours, Miss Smith vowed she would win back her honors.

She did not win them, however, without a fight, for, about an hour before she surpassed Mrs. Thaden's record, she dropped a note which read: "Stabilizer gone haywire again. Can't wind it back. Have both arms wrapped around stick. It was a tough night but it won't be long now."

Mechanics at the field said the stabilizer probably had stuck.

Record Recognized. Official recognition of the record-making achievement of Miss Smith was made by a wave of the hand. Harry Booth, representing the National Aeronautical association, who had placed a sealed barograph in her plane and who remained on the field to time her flight, drew out his watch as the fatigued hour of 9:44 a. m. arrived. As the second hands ticked past 9:43:56, he looked up and waved his hand. The old record had been surpassed.

Booth explained that a single second would have given Miss Smith the status of a new record maker because inasmuch as the National Aeronautical association has not, as yet, established an official classification for such a record the association's rule that new records must surpass old ones by at least an hour, did not apply.

Two classes are now recognized. One for sustained flight without refueling and the other for sustained flight while refueling in the air. These take no cognizance of the sex of the pilots or the number of persons in the ship. They consider the performance of the craft itself only.

Bellanca to Congratulate Girl. Word that Miss Smith broke the record was flashed by telegraph to G. M. Bellanca, designer of the monoplane in which the girl was flying. He wired back that he was leaving Newcastle, Del., immediately, accompanied by Mrs. Bellanca, in a plane to congratulate the new record holder.

Weather conditions were ideal. The sun was shining brightly this morning, the temperature was balmy and the visibility was fine. How much Miss Smith had left was not known, of course, but she must have had a sandwich or two left for she took on a good supply when she set out after the new world's mark.

## DEATH ROLL

Frank Farmer, SALEM, O., April 24.—Funeral services for Frank Farmer, 63, who died yesterday, will be held at 2:30 tomorrow afternoon in his home 233 South Lundy street, in charge of the Rev. C. F. Evans. Burial will be made in Grandview cemetery.

Mr. Farmer was born near Salem, a son of the late George and Jerusha Farmer. He was employed by the Silver Manufacturing company.

He leaves his widow, and a half brother, Warren Farmer, of Portland, Ore.

## APPLE BLOSSOM FESTIVAL SLATED

POMEROY, O., April 24.—(INS.)—"When It's Apple Blossom Time" The refrain of that old springtime song were being hummed throughout the Ohio Valley today as a festival air swept over the populace when it contemplated the coming tomorrow with the first celebration of the Ohio Valley apple blossom festival.

It will closely rival, if not surpass, the famous New Orleans "Mardi Gras," and the old Galveston "Cotton" carnival, enthusiasts declared. In conjunction with the event the biggest parade ever staged in the Ohio valley will occur. Floats decorated mainly with apple blossoms and pretty girls, will be featured.

Then too, there is the task of selecting the fairest and most popular girls in the Ohio valley, which will be done tonight.

## REPORTS FROM STOCK MARKETS

By W. S. COUSINS, International News Service Financial Editor.

NEW YORK, April 24.—The bull market in the oil, motor and specialty stocks, was "on" in full force in the first period today as the pools and professionals, encouraged by their success since the turn of the week, bid for their favorites at rapidly ascending prices.

Stimms Pete and General Motors, the star skyrocketers of the last two sessions, were joined by a dozen or more of the best acting industrials and specialties, and the market boiled as numerous 2,000-to-16,000 share blocks passed over the tape. Yellow Truck started the way with a sale of 14,600 shares at 49 3/4, up 1 3/4, buying of the stock being generally attributed to Detroit motor interests.

General Motors, Continental Motor and Briggs, also with prominent Detroit backing, pushed along spectacularly in heavy trading.

An increase of 59,000 cars in the weekly total of freight loadings was convincing evidence of the healthy condition of business generally and the basis for bigger earnings of the railroad systems. Upward revision of railroad stock dividends is more confidently predicted than at any time in a year.

SPRINGFIELD, O., April 24.—(INS.)—Burned in an explosion at his home in South Vienna yesterday, George Johnson, 27, died six hours later in a hospital here.

## LADY BUGS USED TO PROTECT TREES

## FOCH NAME GOES DOWN TO SEA

BREST, France, April 24.—(INS.)—The magic name of Foch, that carried the allied armies to victory in 1918, today went down to the sea on the bow of a 10,000-ton cruiser. The launching of this man of war brings France's savior to virtually her pre-war strength.

Christened by Mme. Foch, widow of the immortalized marshal, this naval fighting machine represents the seventh unit added to the fleet during April.

Contrasting sharply with the launching ceremony of the steel warrior, was the sharp challenge of the United States as expressed at Geneva by Hugh Gibson—for immediate reduction of the navies of the big powers.

Los Angeles Returns from Cruise. LAKEHURST, N. J., April 24.—(INS.)—The dirigible Los Angeles returned early today from a training cruise over New York city, Long Island and the Jersey coast. The trip was uneventful.

### LAUDS ATTITUDE

Ambassador Gibson's Warcraft Speech Wins Approval.

By HARRY R. FLORY, International News Service Staff Correspondent.

LONDON, April 24.—Foreign Secretary Sir Austen Chamberlain, speaking for the British government, declared in the house of commons this afternoon that England approves America's demand for a reduction of navies.

"This government, with the government of the United States desires not merely limitation but reduction of naval armaments," said Sir Austen. "Such differences as hitherto existed between us have not concerned this great principle, nor the relative strengths of our respective navies, but only the determination of categories into which ships should be divided."

The foreign secretary said he noted with interest Hugh Gibson's new criteria for the determination of warcraft categories.

## OLD CITY HALL BELL IS PLACED IN FOREIGN WAR VETERANS' PARK

Old city hall bell, which for years has been exposed to the weather in the city hall yard, today occupies a site in the Foreign War Veterans' park at Third and Market streets.

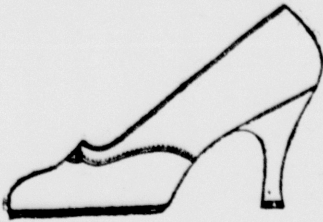

The bell, cracked during the Armistice celebration in November, 1918, stands on a concrete base at the center of the lot which has been cleared of brush and planted in grass. Along the two street sides has been placed a hedge fence. A walk is also being provided.

Shrubbery and garden flowers will be planted along the north and east sides of the lot, according to plans of Private Eddy post, No. 66, sponsors of the park, which probably will be dedicated on Memorial day.

MISS JANE DORAN.

"Konjola did all and more than is claimed for it, and I hope that others will profit from the lesson my experience teaches," said Miss Jane Doran, 1528 Woodland avenue, Toledo.

"My entire system was in an extremely rundown condition. I felt tired out all the time, but I did not know where to turn for relief. My pep and energy vanished entirely and I didn't have ambition to do my work. Each morning upon arising it seemed that I had not rested at all, and was more fatigued than when I went to bed.

"I decided to give Konjola a trial, after reading such wonderful testimonials about it in the paper. Konjola certainly did what is claimed for it. The road to glorious health was before me and I traveled it fast. New pep and energy was restored. My sleep was sound and peaceful and each morning I felt a desire to accomplish my work. It was a wonderful day for me when I started Konjola."

## Governor Will Call Legislature Session

Codification of State Laws Will be Asked at Fall Meet in Charleston.

CHESTER, W. Va., April 24.—Governor William G. Conley probably will be asked to call a special session of the legislature early in the fall to complete codification of the state laws, it was announced at the close of a meeting of the code commission yesterday at Charleston.

Codification of the state laws has been considered for several years. A committee, previously appointed, was re-created by the 1923 legislature, with the addition of five lawyers named by Governor Conley.

It was intimated that the school laws might be changed. Officers of the code commission are: Chairman, Senator M. Z. White; vice-chairman, Speaker J. William Cummins; Wheeling; secretary, Attorney T. Brooks Price, Charleston.

Work of codifying the laws, which will require two months, will be in charge of a committee headed by Supreme Court Judge James A. Meredith of Fairmont.

## TRADE SPOUSES

Otto Slade, top, and Horace Reed, below, both of Bennett, Neb., traded spouses, Reed getting a \$30,000 garage in addition because Mrs. Reed was the better looking of the two wives, but the law stepped in and now both traders are repenting in jail.

## Stomach Gas, Dizzy Spells And Backaches Vanish

"Owa-Ton-Na Real Opportunity for Discouraged Sufferers," Says Mrs. Flanagan.

When ill health comes too often sufferers of the right remedy is not given careful consideration. Nature has endowed mankind with its most delicate mechanism. Minute nerve ramification in important organs of the body can easily be deadened by harmful medicines thus interfering with the transmission of nature's warnings to the brain centers. The result is that destructive poisons continue their work in delicate organs as long as such remedies are used but upon their discontinuance, it is not long until the sufferer finds that their treatment has been of no avail. Thousands of sufferers have experienced this condition until finally they felt there was not any help for them.

Owa-Ton-Na proves itself exceptionally valuable in obstinate cases which do not seem to respond to treatment. Often times, relief in these cases is considered miraculous. It is not claimed that Owa-Ton-Na performs miracles simply that it does what very few medicines do and that is to cleanse from the system harmful poisons which are causing disease. The surety with which nature's roots, herbs, barks and berries are compounded in this Indian formula, Owa-Ton-Na, act is daily being experienced by thousands of sufferers. They act not by doping, and deadening but by stimulating normal functional activity which results in a natural elimination of disease. The laboratory representative who is daily explaining the merits of this fine old Indian Remedy, Owa-Ton-Na, to eager health seekers at Carnahan's Drug Store, 114 E. 6th St., has seen thousands of gratifying cases and will be able to tell you about them and the merits of this remedy.

Of particular interest to similar sufferers is the case of Mrs. Mecia Flanagan, Jefferson St., Newell, W. Va., who has tried many remedies for the relief of her disorders with but very little results. She says, "It would be hard for me to say just how many different things I have tried since I have been ailing. It almost seems as though I had been taking medicines all my life. Terrible gas and bloating spells with which I suffered, sometimes made me feel that I couldn't bear them. Why, at times it seemed I couldn't get my breath. Food just lay in my stomach it seemed for hours and many nights I would toss about in bed without being able to sleep."

"My bowels have been constipated for years and my kidneys had not been functioning the way they should. Many nights, I was forced to get

Mrs. Mecia Flanagan.

up three or four times and the backaches with which I suffered made me feel as though my back would break. I would get so dizzy at times that I would have to sit down for fear of falling and this sensation had me scared as I didn't seem to know what caused it, and then I would get terrible headaches that almost drove me crazy. I heard so much about this fine old Indian Remedy, Owa-Ton-Na, and the good it had done for many of my friends that I felt it would surely do some good for me. I certainly bless the day that I tried the first bottle. I never found anything equal to Owa-Ton-Na."

"Even the first bottle seemed to make all my stomach trouble disappear. No more gas, no more indigestion and my heart is acting normally. Where I used to be afraid to eat, I now eat anything I want and have a wonderful appetite. Not only did it correct my stomach troubles but my kidneys are acting normally. Backaches are a thing of the past and constipation which has always caused me so much trouble, is gone."

Case after case reports similar good results from the use of this fine old Indian Remedy. You too, may find in Owa-Ton-Na just the remedy you have been looking for. A trial bottle will convince you and it is certainly worth that to anyone who is suffering. Call today at Carnahan's Drug Store, 114 E. 6th St., and have a confidential talk with the special laboratory representative. This service is free and incurs no obligation.

From all present indications, says Superintendent Daw, the class will approximate 67 members, headed by Raymond Courts and Miss Ruth Bowles, honor students.

Definite date for the eighth grade commencement exercises has not been determined, school authorities said today.

There will be between 65 and 70 members of this class, it is expected.

# Lefty O'Doul, Ditched By McGraw, Bobs Up To Worry Giants

## Stars With Phillies Now And Leads Loop Batters

Fred Leach, Jaw's Share of the Deal, Has Failed To Earn Regular Berth; Red Sox Beat Yankees.

By Les Conklin.

NEW YORK, April 24.—John Joseph McGraw, who bought Eddie Roush and Heinie Groh twice before he was convinced that they were stars, today was wondering if he had erred again in assessing the value of Lefty O'Doul as a ball player.

O'Doul was shanghaied from the Giants to the Phillies in exchange for Fred Leach because he was alleged to have been more interested in the average prices of stocks and bonds than in his own batting average. Leach has yet to earn a berth as a New York regular this year, while O'Doul is leading the National league in batting and has smacked three home runs, all against the Giants.

The latest indication that McGraw has been hornswoggled again came yesterday when O'Doul collected three hits, including a homer, at the expense of Larry Benton, New York mound ace. The Phils won, 3 to 1, practically ruining the Giants' home opening before 40,000 fans. Weeping Willoughby walked ten men but bore down so hard in the pinches that 20 Giants were stranded on the paths. Barney Friberg, the old war horse who is subbing for Tommy Thevenow, broke up the game with a triple in the eleventh.

Other under dogs also had their day. The Red Sox, opening at home, did themselves proud by trouncing the Yankees, 4 to 2. Morris outpitched Pipiras and Heimach.

The magic spell of the Cubs' pitchers was broken after 28 innings. The Cardinals nipped Sheriff Blake for three runs in the third inning and tallied five more in the eighth, winning 9 to 6.

The Cubs now have only one catcher, Angley, a rookie, as Gonzales and Grace were injured yesterday and Gabby Hartnett is out with a lame arm.

The home opening of the Athletics was ruined when they lost out to Washington in the eleventh, 4 to 3. The reorganized Cleveland outfit took the lead in the American league scramble by nosing out the White Sox.

### MEETS ANDERSON

Here's Honey Boy Finnegan, who's paired off with Eddie Anderson in what promises to be an interesting 10-round bout in Chicago soon.

Finnegan is one of the best known 130-pounders in the east.

## Bethany Misses Old Stars

Elliott, Tarr, Neel and Others Finish Track Careers.

BETHANY, W. Va., April 24.—When Bethany and Washington-Jefferson oppose each other in a dual track meet at Washington, Pa., Saturday afternoon, followers of the elder sport in the Washington, Pa., sector will not be viewing a Bison track team similar to that representing the Green and White institution in the last four years. In the first place there will be no men on the Bison team comparable to the great Virgil Elliott, Huntington Beach, Cal., who was a star in several events during his stay here, as well as always proving a vital factor in aiding Bethany defeat W. & J. The names of Frank J. (Wild) Tarr, Toronto, O., and Paul Neel, Mingo Jet, O., star dash and 220 yard men will likewise be missing as will that of Robert Cushman, Wilmington, O., formerly a pole vaulter here.

However, Coach Nuss will present a team of hustlers in opposition to the Presidents. Built around William Morris, Shelby, O., captain, Dale Fiers, West Palm Beach, Fla., Arthur Markley, Washington, Pa., Malcolm Rush, Hanoverton, O., Dean Loveland, Uniontown, Pa., all letter men from last year, the Bison track team will endeavor to put a crimp in the W. & J. win column. In addition Coach Nuss has Frank Rogers, New York City, Van Marietta, Conneville, Pa., Jack Thompson, Wayne, W. Va., and Peyton Telfair, Wilmington, O., in the weights. William Kelly, Sioux Falls, S. D., and Robert Maurer, Ulrichsville, O., in the pole vault, and George Dice, Pittsburgh, Pa., in the dashes and javelin. Edwin Miller, Barnesville, O., and George Owen, Orleans, Ind., have shown up fairly well in the mile and may be given an opportunity to sport their wares tomorrow.

Bethany's fighting tracksters, although going into the meet the underdog, will give the Presidents a stiff battle as they have been pointing themselves to the meet for weeks.

### NICK ISSUES PRACTICE CALL

All you Wellsville City league baseballers, front and center!

Pilot Roy Nicholson of the down river club today issued a call for practice, scheduling sessions for Thursday and Friday nights and each and every night next week. Workouts are scheduled to start at 5 o'clock. Players are asked to report at 5 or earliest convenient time thereafter.

Nick is paging the following performers: G. Wagner, Rager, C. Wagner, Talbot, A. Reese, Maley, Hancock, Lintner, B. Reese, N. Canavan, Hop Stewart, Craven, Joe Wise, Ed Bloor, John Penabaker, Birbeck, Stevens, Householder, Davis, Schneidmiller (the youngest) Baker, Mackall, Wolf and anyone else, not belonging to any other club, who feels he has some baseball in his system.

### HERMANN'S NINE TO BATTLE DAYTON

SPRINGFIELD, O., April 24.—Coach Joe Hermann and his band of Wittenberg baseball players departed today for Dayton where they will drop in on the University of Dayton Flyers for the initial tangle between the two nines this afternoon.

Dayton and the Lutherans are ancient rivals and today's game promises to be one of the best. The Flyers have already played two games with a Buckeye association foe, Miami, and walked off with two wins.

## Baseball Looks To Oculist

Chick Hafey's "Cheaters" Set 1929 Diamond Style.

By Davis J. Walsh.

NEW YORK, April 24.—Stake a ball player to a slovenly season three or four years ago and he would have been satisfied until he had somebody in a butcher's apron fly-casting for his tonsils. Today, the enlightened thinkers of the ball field seem to be headed toward the oculist's, for the bespectacled Chick Hafey has interested the impulsive young men most strangely with his home runs since the start of the season. And if you don't think so, all you have to do is to tune in on the New York Giants. They estimate that upward of thirty per cent of the profession is in need of ocular attention and no less a personage than John McGraw says that most of the batting failures are prompted by defective vision.

A little more of this kind of thing and they'll have three men in every nine gazing pensively upon the national pastime through a set of bifocals, the social standing of the umpire being elevated accordingly. Full well I remember the "Blind Man" was the only blind man on the ball field.

The funny thing about the present situation is that Hafey has knocked the boys off on the strength of a two-day performance. He was hitting only .242 this morning and his .208 of the day before might have slipped down among fielding records somewhere if he failed to get two hits against the Cubs yesterday.

The young man, according to the Giants, said in the south that he never realized how big a baseball was until he had his brow measured for the show windows. He told Bob O'Farrell that his bat felt like a lead pencil in his hands and, for the first four days of the opening series with the Cincinnati Reds, he more than looked the part. He drove in four runs in the first game, scored another on a home run and blew himself to a single. Lou was the victim of that rampage. Three days later, he hit two more homers off Kolp, Kemmer and Zahner and one of them topped the centerfield wall at Redland field for the first time in history.

That wallop, measuring 417 feet, started all of the dugouts prattling idly about the phenomena and they haven't stopped yet, in spite of the fact that Hafey has—more or less. Good pitching seems to affect him as adversely as it does anybody else, glasses or no glasses. Donohue didn't give him a hit the day he worked against the Cards in Cincinnati, nor did Bush and Malone on successive afternoons in Chicago.

Meanwhile, Mr. Hornsby and Mr. Gehrig, who wouldn't even wear glasses as a disguise, seem to be bearing up very bravely in the face of their implied affliction. The former was hitting .474 this morning and the latter .417, while Mr. Ruth, who has been known to use glasses but not on his nose, is obliging with a snappy .231, proving that it all proves nothing.

## The Sport Jigger

By the Sports Editor

RAY FOUTTS, the Wellsville cauliflowerer, turns up again with a choice selection of spring specimens of his favorite product. They will be exhibited Monday night at Wellsville.

Foutts has been silently trying to dissipate his sorrow since Jackie Rodgers gave him an example of his famous double shuffle. Although Foutts doesn't dissipate. Boxing promotion is his worst vice.

Rodgers took a neat trimming from Willie Davies the other night and Foutts wept—for joy.

THE Davis bout, scheduled within five days of Rodgers' fight with Young Irish the Akronite, here, prevented the Pittsburgher from fighting at the Valley A. C.

But this same bout is going on in Sandusky in the near future.

T. N. T. Gibbons, who was too smart for Solomon . . . can you imagine it? Oh! Mickey Solomon . . . all right, all right, lay off! But this explosive Gibbons, in this cornish, weight one hundred and fifty-five pound-z-z, ladiez and gentlemen, and those who got in free, will fight, probably, Young Guido.

THEY may lack the color of a Rodgers or a Kid Chocolate, says Mr. Foutts, without trying to be facetious about it either, but they're no Prima Donnas!

And when the roll is called down yonder . . .

THEY'LL BE THERE!

## Babe and Yanks to Meet Bucs In Exhibition Contest May 3

Champs to Play Again At Scene of Their World Series Triumphs Of 1927.

BABE RUTH, Lou Gehrig and the rest of the World champion New York Yankees are coming to Pittsburgh on May 3 to display their renowned ability for Western Pennsylvania fans in an exhibition game with the Pittsburgh Pirates at Forbes Field.

The big Bambino has not appeared in Pittsburgh since the World Series of 1927, during which he failed to hit a home run at Forbes Field, so many fans of this section of the country have yet to experience this mighty thrill. The game of May 3 may serve to satisfy them in this respect, for the big Sultan of Swat is hitting them just as often and just as far as in past years. The game will start at 3 o'clock.

Notwithstanding Ruth has been fourteen years in major league ball, eight of which years he has been known as the home run king, he never has grown old in popular favor, and still is the greatest individual attraction the game ever has known. He never fails to give his customers the thrill of their lives. If he happens to be not fortunate enough to pole the ball out of the lot in the game, he is sure to put several of them over during the practice period. Exhibition games are his "meat," and he seems to make a special effort for a crowd sweat when performing for other than his regular American league spectators. Plenty of interesting news concerning the big Babe has drifted in from the south during this year's training season, more people have turned out to see him and the Yanks this spring than ever before. In fact, the southern tour of the Yanks was a sell-out in every town visited.

The Yanks' fame as a three-time winner of the American league pennant, and as a team that has ended two successive world series in a total of eight games, has carried some appeal with which to fill up the ball parks, but the main appeal has been the big Bambino.

But Ruth is not the only star on the Yankee team. Lou Gehrig, or "Larruping Lou," as he has caused himself to be called, comes in for not a great deal less applause than Ruth, and there are many other players on the team who are the cream of American league talent and whom it will be a great treat for Western Pennsylvania National league fans to see in action.

The prices for this game are the same as for all regular championship games at Forbes Field—Reserved seats \$1.50 and box seats \$1.75. Tickets now are being sold by mail and all orders with remittance, directed to Forbes Field, will receive careful attention.

# Forbidden Door

Story of Adventurous Youth, Mystery, Fortune and a Girl.

By Herman Landon

"I promised to do nothing reckless. I am living up to that promise." For a moment he gazed steadily at the clock above the iron door. "You know I didn't come out here to admire the scenery. It was agreed that we should do a little quiet investigating. I don't intend to delay any longer. I don't quite like the appearance of things, Julia. I'm going to act tonight. It may be too late tomorrow. It will be perfectly safe. I know what I am doing."

She drew in her breath sharply. Her pale-blue eyes were wide with dread. "I'm afraid, Ernest," she said hoarsely. "I feel there will be terrible consequences if you touch that door. Please—please don't! Where is Mr. Peters?"

"In bed. He is useful in many ways, but I don't need his assistance tonight. I meant to go ahead on my own, without disturbing either of you. Now that you are here, however, you might as well remain. You may see something interesting."

"I'm terribly frightened, Ernest." She placed her white, slim hand on his sleeve. "I'm frightened for your sake. Please, Ernest—"

Impatiently Mallingham shook off her hand. "None of that!" he said sharply. "Either pull yourself together, or else leave me alone. Why didn't you stay in bed?"

"Because I couldn't sleep. So many things came to my mind. I was thinking about Hannan. You haven't told me what happened to him."

"Because I don't know. How many times must I tell you that? Anyway, what is Hannan to you?"

"Oh, I know, but— Well, I shan't ask any more questions. I only wish you wouldn't do this thing tonight. Why not wait until tomorrow? Oh, Ernest—"

She flung out her hands beseechingly.

Mallingham pushed her roughly aside. "Keep still or get out. You are hysterical. Better run along now."

"No, I shall stay here with you." Of a sudden her voice sounded very faint and meek. "Whatever happens to you will happen to me also. I shall stay, but I promise not to argue any more. Only I'm afraid—"

Mallingham's mood changed. From his impressive height he smiled down upon her. "Brace up," he said gently. "The trouble with you is that you have Old Winthrop and his infernal contraptions on the brain. He has hypnotized you with his mysterious hocus-pocus. Just remember that he is dead, and that dead men can't harm anybody."

She smiled faintly, but the smile dimmed as she glanced up at the clock. "Yes, he is dead, but he lives in that clock. It's been running ever since he died, and nobody knows what makes it. Can't you see, Ernest? Old Winthrop's deeds live after him—and that's what makes me afraid. There's something supernatural, something uncanny—"

"Nonsense!" Mallingham chuckled reassuringly. "It's all natural enough. As for this old clock, you needn't be afraid of it any longer. In exactly seven minutes it is going to stop—forever."

She gasped. Her eyes, starting up at him, grew dazed. She stood rigidly still, not even breathing.

"And we have a shrewd suspicion—haven't we?—that the door may be safely entered as soon as the clock stops," said Mallingham, regarding her stupefaction with amusement. "Old Winthrop's curse will have no effect after that. His ghost will be laid for good."

"Yes, but—"

"What's going to stop the clock?"

"Something very simple. An ordinary alarm clock is going to stop it, the kind that may be bought for 98 cents."

She shook herself weakly. "You are going to stop Old Winthrop's clock with an—ordinary alarm clock. You are joking."

"Not at all. An ordinary alarm clock will do the trick, aided and abetted by a length of wire, a fuse, a dry cell and a quantity of explosive material. It's going to happen in exactly five minutes."

She stood staring at him out of big, stupefied eyes. "I don't seem to understand. It sounds so ridiculous."

"All great truths sound ridiculous in the beginning. As you know, I have been thinking a lot in recent weeks, trying to unravel Old Winthrop's secret. I've had a theory for some time, and I'm practically certain it's the correct one. Where do you suppose I went after dinner this evening?"

"Well, for once I didn't mind a drenching. I discovered several things. Amongst others, I found an old shack a little distance up in the hills. It was packed to the roof with explosives. It seems that some years ago there was a project on foot to drill a tunnel through Old Blighty. The project was abandoned, but a part of the explosives were never carted away. They came in very handy for me. I returned to the house and managed to sneak away a few articles while nobody was looking. Among them was the old alarm clock. I went back up the hill and arranged for a little explosion to come off at precisely 3 o'clock. We haven't long to wait."

Julia rubbed her temples. "I don't seem to understand a thing. Why at 3 o'clock?"

"No particular reason. Two-forty-five or 3:15 would have done as well. I merely wanted it to come off at a time when everybody would be asleep and I could take advantage of the explosion without fear of interruption."

She drew a long breath. "But why did you want an explosion at all?"

"Because the explosion is going to stop Old Winthrop's clock."

"An explosion up in the hills?"

"Precisely, my dear. The thing that has kept Old Winthrop's clock running all this time extends up in the hills. But I shan't try to explain any more. That over-worked little brain of yours has had enough for one night. Besides, we have only one more minute to wait."

## The Explosion

Julia fixed a shrinking glance on the clock. Her exquisitely molded face was very white. She leaned against the wall of the narrow corridor, one hand flinching at her throat. Now and then she looked at Mallingham as if seeking strength against the morbid dread that was shaking her body. He was smiling faintly, a smile of subdued satisfaction. A furtive light softened the cold grayness of his eyes. What he had told her was bewildering, stupefying. Her brain was all giddy whirled when she tried to understand. Only one thing she knew. Within a minute the clock would stop. Old Winthrop's hand, reaching out from the grave, would be powerless. The curse would be lifted from the iron door. It must be so, for Mallingham expected it to happen.

The clock began to strike. She shivered violently. The melodious beats fell like hammer blows on quivering nerves. One—two—three. She had closed her eyes as if to shut out a dread vision, but now she opened them again. How cool Mallingham looked, how sure of himself and his ability to frustrate Old Winthrop's will!

"The alarm clock may be a minute or two behind," he lightly remarked, but she noticed his hand trembled ever so lightly as he lighted a fresh cigarette.

The suspense grew to be a torture. She felt she must say something to shatter the terrible stillness, broken only by the ticking of the clock and the remote sounds of the storm.

"Will it be a very violent explosion?"

"Oh, no. I doubt if we shall even hear it. It ought to come any moment now." His eyes were on the clock, as if expecting each tick to be the last. "If I'm not mistaken—"

His shoulders jerked up. Julia clutched her arm convulsively.

A roar came, quick, resilient, like a volume of sound leaping into the air and spending its force in an explosive crack.

"Louder than I expected," Mallingham muttered tensely. Julia clung to him, watching his face that was blanched by a terrific tension. Rigidly, breathlessly, he watched the clock, staring at it through contracted lids, as if it were an indicator of fate.

Another roar came, sharper, longer, more far-reaching than the other. The earth seemed to heave gently, then settled back. A tinkling sound came from shivering window-panes. Julia dug her fingers into Mallingham's arm. His face was gray and showed a terrible strain. There was a surprised, baffled look as well.

"Another," he muttered. "I can't understand. Something—"

## 300 INDIANS WITH 101 RANCH

If you've been getting your thrills watching "Westerns" in movies, you will be scared stiff when some 300 real Sioux, Cheyenne, Crow, Apache and Blackfoot warriors thunder down the great Anna of 101 Ranch Real Wild West on their war ponies and swirl into their famous "death circle" at Columbian park on Monday, May 6.  
The big show has almost as many thrills in it as had the World war. There are 1,100 people with the troupe, 600 horses, elephants, camels, buffalo, oxen and longhorns. Boys and girls, there never was a show half so thrilling, half so spectacular nor half so entertaining.

## RIVER FALLING AFTER SEVENTH RISE OF YEAR

Crest of 24.2 Feet  
Reached Last Night.

LIBERTY IS DUE

Steamer J. D. Ayres  
Plans Maiden Trip  
To Memphis.

For the seventh time within three  
months the Ohio river here was falling  
today after a sudden rise. The  
stage at noon was 19.1 feet, following  
a crest of 24.2 feet which was reached  
at 9 o'clock last night.

The steamer Liberty will arrive  
here tonight, en route to Wheeling,  
W. Va., from Pittsburgh.

The Smoky City, without a tow,  
passed here yesterday afternoon for  
Pittsburgh. The Governor Harding is  
en route to Louisville, Ky., with two  
empty barges. The John F. Klein,  
with one barge of supplies passed here  
on her way to Pittsburgh.

Steel For Southland  
The steamer J. D. Ayres of the  
Union Barge Line corporation will  
leave the Pittsburgh harbor Sunday  
on her maiden trip for Memphis and  
intermediate ports. The boat will  
have a tow of approximately 10,000  
tons of manufactured steel products  
from the plants of the Jones and  
Laughlin Steel corporation, the Pitts-  
burgh Steel company, the Weirton  
Steel company and the Wheeling Steel  
corporation. Deliveries will be made  
at Ironton, Portsmouth, Cincinnati,  
Louisville, Evansville and Memphis.

The first of an order of three covered  
barges constructed by the Jones and  
Laughlin Steel corporation was  
delivered yesterday and taken to the  
plant of the Weirton Steel company  
at Weirton to be loaded with tin  
plate. The steamer Sam Craig arrived  
from Memphis yesterday with a tow  
of empties. The steamer C. W. Talbot  
passed Evansville yesterday on her  
way to Pittsburgh with a tow of empties.

The steamer Reliance of the Union  
Line is on her way from Parkersburg  
to Moundsville and Wheeling with a  
tow of four tank barges containing  
gasoline. The steamer Old Reliable  
after delivering a tow of tar and scrap  
steel to Weirton and Follansbee was  
on her way back yesterday with a  
tow of cokes for delivery to the  
Jones and Laughlin plant, Monongahela  
river.

Steamer Is Disabled  
The steamer Inland of the American  
Barge Line broke her shaft while  
passing the head of Letart Island with  
a tow of Pittsburgh steel products for  
southern delivery. The packet Senator  
Cordill on her way to Pittsburgh  
towed the boat and her tow to a point  
opposite Paden's Landing. The  
steamer was later taken to Point  
Pleasant for repairs.

United States Steamboat Inspectors  
George E. Berry and Edward L. Shaw  
returned from a three-day trip on the  
Monongahela river, inspecting ferry  
vessels between Pittsburgh and Fairmont.  
Of the 18 inspected, nine were  
certificated and the other nine passed,  
since their operation power is located  
on shore, and on this account do not  
come under the jurisdiction of the  
inspection service. The United States  
steamer Swan was inspected yesterday.  
Earl Bryant made an examination  
of the repairs to the boilers on the  
steamer Vulcan at Florence. Miss  
Alice Lilly, clerk in the office of  
the supervising inspector, Harry  
Layfield, is recuperating from an  
appendicitis operation in the Braddock  
General hospital.

Finds Ancient Relic  
D. A. Crawford of Embleton is the  
owner of a medallion found in the  
Allegheny river about 50 years ago.  
A towboat operating in that stream  
at that time rammed into a wharf-  
boat and lost the marker. This plate  
has an anchor with a line embossed,  
flanked by the letters C and B. Crawford  
states that interested parties or  
the former owners of that boat may  
procure the souvenir free by addressing  
him.
